

Publisher's Note

Sweet Honey Kisses for an Anxious Bear is an adorable read, and it's clear it was written by someone with a heart full of love, author and mother Christine Fishman.

The books that often make the biggest impact to the reader are the ones dedicated to helping others through a challenge or hurdle in their life. When a parent is emboldened to support and provide for their children, and that parent is an author, the weight of the words they express seem even more palpable.

Even with lived experience, it can be difficult to pass on what we know to guide and assist others, especially when they're our children. That hasn't stopped Christine; in fact, perhaps it's fueled her fire to ensure that other families, as well as hers, feel encouraged and are given the tools to cope well with some of life's trials.

Her strength and resolve even helps you recognize the growth opportunities amidst those difficulties, and to celebrate the little achievements in life as much as the big ones.

We offer our warmest congratulations to Christine on her very first book.

Sincerely,

Sheri Andrunyk
