

MESSAGE TO THE READER

It is my heartfelt wish, through reading about Christy and her friends that you understand better what is happening to animals in the world today.

It is also my hope that you will be kind, and learn to respect them and the environment in which they live.

Then, perhaps most important, it is my dream for everyone to continue making small changes that will have a global and lasting impact, so we can enjoy all species, both endangered and thriving, for a very long time.
